# Our passion for fishing is obvious ...

EVERYONE AT PHOENIX HAS A PASSION FOR BASS FISHING

From our President, to our salesmen, to our craftsmen who build the boats, we all live to fish. Whether it is Bassmaster events and weekend tournaments or spending time fishing with our family and friends, we truly love the sport. This passion has shaped our lives and it has likewise brought about many of the fishing features that you see on the Phoenix today. Our goal is to make every boat that goes out our door the best fishing platform it can be, in both design and construction, for our customers. We love to fish as much as anyone and we believe it shows in every boat we build.

*Gary Clouse, President, Phoenix Boats*

Better Boats.

A HIGH QUALITY BOAT CANNOT BE BUILT WITHOUT HIGH QUALITY MATERIALS.

At Phoenix, we buy the best raw materials and components available. High quality resins, knit-type fiberglass cloths (A and B), and Plexus brand adhesives to bond the stringer (C), Coosa Composite in our transom (D), and Trevira cloths for superior screw retention are the materials that make Phoenix different than others. Before you choose a boat, you owe it to yourself to compare the complete package of quality materials, craftsmanship, fishability and performance. We believe it will be hard to find a better choice!

The 921 ELITE is a hybrid of all things desired by our anglers. From the speed of our ZXL series to the fisherman friendly layout of our XE series and the raised deck height of our 721 comes the ELITE. The industry changing bow area allows for large graphs to be flush mounted or multiple units to be stacked. We offer an all fiberglass bow insert for using the latest in forward looking sonar technology on standalone units. The ELITE series is designed around simplistic functionality to allow our anglers to be more efficient with their time on the water.
